

The Secret to Getting Bestselling Ebooks for Free

October 20th, 2015

Bestselling ebooks are being given away for free every single day. Acclaimed novels from the most talented authors in the world can be at your fingertips for little to no cost.

How is this possible? It's because publishers and authors are giving ebooks away on purpose. Here are the main reasons why they do it:

1. Hook You on a Series – Just like movie makers, authors and publishers recognize the power of a compelling series, such as The Hunger Games. Publishers and authors know that giving away the first book can get you hooked so that you buy the subsequent books. This is good for everyone. Book lovers get great books for free, and publishers and authors reap the rewards in future book sales.
2. Prime the Pump for a New Release – As part of the promotional plan for a new release, publishers will often re-release an old book by the same author at a large discount to drum up publicity and new readers. For example, in anticipation of Dan Brown's *Inferno*, Doubleday Publishing released his wildly successful novel, *The Da Vinci Code*, for free. A whole new audience was introduced to Dan Brown, and *Inferno* became a bestseller.
3. Build a Following for a New Author – Many independent authors give away their masterpieces for free to build up a following. It's difficult to break through in the competitive publishing world, and giving away a book for free can put an author on the map. For this reason, you can often find diamonds in the rough at a low cost (if you know the right places to look).

Now that you know the free ebook secret, how do you go about finding them? There are many websites claiming to have free ebooks. But it's often difficult to cut through the clutter and find the high quality books perfect for you.

That's where our service, BookBub, comes into play. We do the work so you don't have to. We handpick eBook deals across a wide range of devices – Kindle, Nook, iPad, Google Play, Kobo and others - to ensure the highest quality. In fact, we reject over 50 percent of the submissions we get.
